Scott,

Here is my revised version. Thanks. Dee

We anticipate 3 Tribal Consultations in the next 6 months – the ongoing U&O FIP, and two potential requests for consultation for the Title 5 Renewal for the landfill on Skull Valley Goshute, and the Title 5 Renewal for the Riverton Dome Facility on Wind River.

We have no “success stories” to report over the past six months.

How does this look to you for a response? I will ask Ron to correct “UNO” to “U&O”, although I assume he’ll type the whole name out in the actual response.

Scott

I thought you'd like to see this before we send it on to Alfreda and Darcy.

We plan on 3 Tribal Consultations in the next 6 months – the ongoing UNO FIP, the Title 5 Renewal for the landfill on Skull Valley Goshute, and the Title 5 Renewal for the Riverton Dome Facility on Wind River.

Since the UNO FIP is ongoing, and the other two Title 5 Renewals are new, we have no “success stories” to report over the past six months.
